

Swerim Day | Oct 21, 2026

An afternoon of insights and discussions with speakers from Stegra, Siemens, Blykalla and SSAB. We will explore the role of material supply, material properties and resilience in strengthening competitiveness in a rapidly changing world. The programme will also highlight some of Swerim's collaborations with industry and the impact of our research on both society and industry.

PROGRAMME

Moderator: *Lena Callne*, Callne Communication

14:00	Registration	
14:30	Welcome	<i>Pontus Sjöberg</i> , CEO, Swerim
14:40	Material Properties, Supply and Resilience: Key Drivers for Competitive Advantage	Panel with <i>Jakob Oskarsson</i> , Blykalla, <i>Marta Couto</i> , Siemens, <i>Magnus Andersson</i> , SSAB, <i>Christopher Gusek</i> , Stegra and <i>Pontus Sjöberg</i> , Swerim
15:00	From Blast Furnace to EAF – Ensuring Consistent Material Properties	<i>Magnus Andersson</i> , Product development manager SSAB Special Steels
15:20	How Material Development Changes the Lifetime of Gas Turbines and Prepares Us for the Future	<i>Marta Cuotu</i> , Manager for Material Testing and Development, Siemens Energy
15:40	Coffee break	
16:10	Advanced Alumina-Forming Steels for Fast Lead-Cooled Reactor	<i>Jakob Oskarsson</i> , Head of Materials, Blykalla
16:30	Decarbonizing Steel Production at Scale	<i>Christopher Gusek</i> , Global Head of Steel Technology, Stegra
16:50	OASIS: Towards a One-Alloy Steel Concept for Sustainable Vehicle Manufacturing	<i>Henrik Sieurin</i> , Steel Expert Engineer, Traton and <i>Nader Heshmati</i> , Researcher, Swerim
17:10	Smarter Use of Joining Processes in the Automotive Industry	<i>David Löveborn</i> , Industrial Engineering Expert – Joining Technology, Scania CV and <i>Love Englund</i> , Researcher, Swerim
17:30	Summary	<i>Pontus Sjöberg</i> , CEO, Swerim
17:40-20:00	Guided tour, networking and light refreshments	

DATE: Wednesday October 21

TIME: 14:00-20:00

LOCATION: Swerim, Isafjordsgatan 28A, Kista (Stockholm)

REGISTRATION ►►

Please make your registration no later than October 13.
